

Attendance

Why am I doing this?

I'm reflecting on my attendance since it's important showing my professionalism, commitment to the project and my responsibility. Attendance is important to me to show myself, teammates and teachers that I take my tasks seriously.

How am I doing this?

Throughout the semester I maintained to have a 100% attendance. Even though most teachers stopped taking attendance I still took attendance seriously, to ask feedback and show teachers my progress.

So?

Being consistently present has taught me that attendance is the key to improving yourself. Every time I showed up I learned something new, whether that is through feedback moments with your teacher or learning from other classmates. I've never struggled with attendance, so I'll keep this up for upcoming semesters.
